Appl. No. 10/558191 Amdt. dated 01/14/2007 Reply to Office action of 10/15/2007

## **Amendments to the Specification:**

Please replace the abstract with the following amended abstract:

The present invention relates to aAn in vitro method for screening agents that induceing islet cell neogenesis or duct-to-islet cell transdifferentiation, which comprises the steps of: includes a) expanding in vitro cells of a duct-like structure obtained by inducing cystic formation in cells in or associated with post-natal islets of Langerhans; b) treating said expanded cells of said duct-like structure with an agent screened; and c) determining potency of said agent of inducing islet cell differentiation of said duct-like structure in becoming insulin-producing cells.
